

Interested in sport?

Think health is important?

Want to improve the health of the Deaf community?

DO THE DEAF HEALTH ONLINE SURVEY www.deafhealth.org.uk

UK Deaf Sport knows that our health is important and is supporting this important research.

Nobody knows about the health of the Deaf community. Nobody has ever tried to find out. We think Deaf people may have poorer health than they should. We need the evidence. With evidence, we can make health services better for Deaf people in the future. If you think all Deaf people should be able to live healthy lives, then this research can make a difference.

So, please spare some time to do the survey. It's all in BSL and English. And there are some very funny comedy sketches to make you laugh. The survey is confidential. Leave your name and details and you will be entered in a prize draw!

www.deafhealth.org.uk

We may never get a chance again to look at the health of Deaf people across the UK, so please do the survey.

Thank you.

p.s don't forget you could win a prize!
