

DeaflympicsGB

Transport Information

All transportation services will be planned and conducted by the Transportation Department of 23rd Summer Deaflympics Samsun 2017.

Transportation Categories

Transportation Categories for participants of Deaflympics 2017 consist of categories of athletes & officials, referees & juries, control officer and security guards. Between airport – accommodation places, sports venues – city centre, shuttle bus and/or dedicated bus/vehicle will be provided for participants in the aforementioned categories. A time table for Shuttle Services will be prepared and announced according to the final competition schedule.

For Athletes & Officials

Athlete buses will operate between accommodation places and sports venues. For the individual sports, the time interval between busses will vary by the competition schedules made by competition managers. Only athletes and delegation officials will be allowed enter the bus.

For each team to competitions or training in team sports “special” vehicles will be allocated. The vehicles will move from the terminals in the Deaflympics Village to the competition operational plan determined by the competition managers or according to the training program given by the Delegation President 24 hours before to the Sports Department. These buses can only be used by athletes, delegation managers, team officials and vehicle employees.

A “private” bus will be dedicated to each team sport. The buses will depart from the terminals at the accommodation areas according to the competition or training schedules determined by the competition managers. A vehicle will also be provided for delegations on the condition that they inform the sports department on their training programme at least 24 hours in advance.

Transport Information

For Press

A shuttle service from the Main Press Centre to Sports Venues will be planned to provide for the media members, as well as from media hotel to the Main Press Centre.

Tramway, Public Bus and Taxi

There are tram lines from Ondokuz Mayıs University to Tekkeköy in Samsun. 24 trams are running on these lines. A samkart must be used to access the tramway. Taxis can be ordered from the Deaflympics Village Reception.

Transportation Request in Emergency and Extraordinary Situation

In case of emergency and unexpected situation, a transportation service can be requested via the Call Centre. Any request will be evaluated by a Transportation Supervisor, and then a transportation service will be provided.

Transportation for Opening & Closing Ceremony

Transportation services for accredited athletes and officials will be provided from the Deaflympics Village to the ceremony venue. At the end of the Opening and Closing Ceremonies, transportation busses will be ready to transfer all the athletes and officials to the accommodation places.
